CONTENTS

	Page
FARMERS' BULLETIN No. 1426.—FARM PLUMBING:	
Introduction	1
Home work	1
Definitions of plumbing terms	2
Pipe	5
Fittings	12
Joints and connections	13
Location of plumbing	15
Roughing-in	16
Fixtures	17
Hot water	23
Protection of pipes	30
Roof connections	32
Floor drains	32
Care of plumbing	32
FARMERS' BULLETIN No. 1427.—POULTRY ACCOUNTS:	
Importance of keeping records	1
Necessary blanks and forms	1
Sample statements	2
Monthly summary sheet	3
Inventory	3
Yearly summary sheet	4
Statement sheet	6
Yearly egg record	6
[illegible]ERS' BULLETIN No. 1428.—SAVING LIVESTOCK FROM STARVATION ON [illegible]UTHWESTERN RANGES:	
[illegible]ffect of erratic rainfall on livestock production	1
[illegible]currence of drought and effect on carrying capacity	2
[illegible]gers of overstocking	3
[illegible]s to prevent starvation loss among cattle	5
[illegible]s to prevent starvation loss among sheep	17
[illegible]y planning and attention necessary	21
[illegible]mary	22
[illegible]' BULLETIN No. 1429.—EMMER AND SPELT:	
What are emmer and spelt?	1
Emmer	2
History	2
Distribution	2
Adaptation	5
Varieties	6
Culture	7
Harvesting and threshing	8
Spelt	8
History	8
Distribution	8
Adaptation	8
Varieties	9
Culture	11
Harvesting and threshing	11
Uses of emmer and spelt	12
FARMERS' BULLETIN No. 1430.—POWER FOR THE FARM FROM SMALL STREAMS:	
Small streams as sources of electric power	1
Power	2
Determining the feasibility of water-power development	5
Measuring the stream flow	5
Measuring the head	8
Water-power electric plants	10
Dams	12
The flume	14
Head gates	15

XUM

FARMERS' BULLETIN No. 1430.—POWER FOR THE FARM FROM SMALL STREAMS—Continued

	Page
Water wheels	16
Electric power	20
Size of plant required	22
Available power sites on selected streams	27
Successful high-head plant	34

FARMERS' BULLETIN No. 1431.—GREENHOUSE TOMATOES:

Introduction	1
Greenhouses	2
Benches compared with ground beds	3
Walks	4
Heating	5
Ventilators	6
Water systems	7
Cropping plans	7
Soils	8
Soil preparation	9
Plant food	9
Varieties and seed	10
Starting and growing plants	12
Quantity of seed and number of plants required	12
Soil for tomato seedlings	13
Establishing the crop in greenhouses	15
Cultivation	16
Trimming and training	16
Temperature and ventilation	18
Pollination	18
Watering	19
Insect enemies	19
Diseases	21
Harvesting and handling	23

FARMERS' BULLETIN No. 1432.—CULTURE OF PIMA AND UPLAND COTTON IN ARIZONA:

Selection of a variety	1
Selection of land for cotton	2
Slope of the land	3
Preparation of the land	3
Preparation of the seed bed	4
Time and method of planting	5
Cultivation	6
Spacing of plants in the rows	7
Early irrigation	8
Summer irrigation	10
Irrigation in the picking season	12
Picking	13
Ginning	14

FARMERS' BULLETIN No. 1433.—CULTIVATED GRASSES OF SECONDARY IMPORTANCE:

Brome grass	1
Slender wheatgrass	5
Johnson grass	7
Bird grass, or rough-stalked meadow grass	8
Creeping bent	12
Proso, or broomcorn millet	14
Reed canary grass	16
Canary grass	17
Rescue grass	18
Cheat	22
Vasey grass	22
Bahia grass	26
Molasses grass	27
Guinea grass	29
Natal grass	31
Teosinte	33
Velvet grass	35
Sweet vernal grass	39
Meadow foxtail	41

FARMERS' BULLETIN NO. 1434.—STANDARD BASKETS FOR FRUITS AND VEGETABLES: Page
Causes of variation in containers 1
Importance of standard containers 4
Existing Federal standards 4
Need for a fixed unit as basis for standards 6
Sales by measure versus sales by weight 9
Proper filling 10
Need of further Federal standards 11
Hampers 11
Round-stave baskets 12
Splint baskets 14
General considerations 15
List of States which have standardized various types of fruit and vegetable containers 17
Federal legislation 18
FARMERS' BULLETIN NO. 1435.—DISEASES OF STONE FRUITS ON THE MARKET:
Alternaria rot of cherries 1
Bacterial spot of peaches, apricots, nectarines, and plums 2
Blue-mold rot of cherries and peaches 3
Brown rot of peaches, plums, apricots, and cherries 5
Bruises 9
Gray-mold rot of peaches 9
Hail injury 10
Pustular spot of peaches 10
Rhizopus rot 11
Russet of plums and prunes 14
Scab of peaches 14
Spray injury 15
FARMERS' BULLETIN NO. 1436.—WHY POTATOES RUN OUT:
Introduction 1
Mosaic 2
Leaf roll 5
Spindle tuber 7
Streak 7
Curly dwarf 8
Combinations of diseases in a single plant 9
What causes these diseases? 9
Tubers from diseased plants produce sick plants 12
Plant lice, or aphids, carry diseases 12
Insects besides aphids may transmit diseases 13
Other plants besides potato harbor mosaic 13
Hill selection near diseased plants is not reliable 13
Plants from healthy seed potatoes grown in fields adjoining diseased fields may become diseased 14
Tuber selection in the bin is unreliable for the production of healthy plants 15
Spraying for mosaic and similar diseases 15
Seed treatment 16
Are there immune varieties? 16
Effect of roguing isolated fields 17
Isolated seed field or plat 17
Cooperative seed-potato production 18
Certified seed potatoes 19
Summary 19
FARMERS' BULLETIN NO. 1437.—SWINE PRODUCTION:
Hog-growing sections of the United States 1
Location of farm for hog raising 2
Number of hogs for a farm 3
Selection of breeding stock 3
Management of the boar 6
Age for breeding sows 7
Management of sows during pregnancy 7
Care of sow and pigs at farrowing 9
Management of pigs during suckling period 13
Weaning the pigs 15
The sows after weaning 16

FARMERS' BULLETIN No. 1437.—SWINE PRODUCTION—Continued. Page

Two litters a year 16
Fall pigs 17
Hog pastures 18
Mineral mixtures 20
Water 21
The fattening stock 21
Feeder pigs 23
Selecting pigs for breeding 23
The purebred hog business 24
Sanitation 26
Diseases 28
Parasites 29

FARMERS' BULLETIN No. 1438.—MAKING FERMENTED PICKLES:

How brine preserves vegetables 1
Equipment for brining and pickling 2
Supplies for brining and pickling 4
Cucumber pickles 5
Salt pickles 5
Sour pickles 7
Sweet pickles 8
Dill pickles 8
Mixed pickles 10
Sauerkraut 10
Fermentation and salting of vegetables other than cucumbers and cabbage 11
Causes of failure 12
Coloring and hardening agents 14
Tables and tests 14

FARMERS' BULLETIN No. 1439.—DISEASES OF CABBAGES AND RELATED PLANTS:

Cabbage and other crucifers 1
Identification of diseases 1
How the various diseases are disseminated 2
Farm practice in relation to disease control 5
Diseases of cabbage and other cruciferous plants 8
Clubroot 8
Root knot (caused by nematodes) 9
Yellows 11
Black rot 16
Malnutrition, a nonparasitic disease 18
Tipburn 20
Wire stem or damping off 20
Blackleg 21
Ring spot 24
Black leaf spot (black mold, brown rot) 24
Spot disease of cauliflower 25
Downy mildew 26
Powdery mildew 26
White rust 27
Soft rot 27
Drop (watery soft rot) 28
Rhizoctonia head rot 29
Pythium head rot 29
Injuries from weather conditions 29
Flooding 29
Freezing injury 30
Lightning injury 30

FARMERS' BULLETIN No. 1440.—MORE PROFIT FOR THE WHEAT FARMERS OF CENTRAL KANSAS: 1

Risks of wheat farming 2
Greater efficiency in wheat growing 7
Adding other lines of production to wheat farming

FARMERS' BULLETIN No. 1441.—RURAL PLANNING—THE VILLAGE:

Why village planning? 1
Types of planned villages 2
Villages replanned 2
Villages originally planned 10
Villages continuously planned 13

FARMERS' BULLETIN No. 1441.—RURAL PLANNING—THE VILLAGE—Con. Page
Types of planned features in villages 26
Gateways: Railway 26
Gateways: Trolley 28
Gateways: Water front 30
Gateways: Road 31
Streets 31
Bridges 33
Commons 34
Parks 35
River-bank improvements 35
Local reservations 36
Cemeteries 37
Public buildings 38
Conclusion 45
FARMERS' BULLETIN No. 1442.—STORAGE OF SWEET POTATOES:
Importance of sweet-potato storage 1
Essentials of good storage 1
Construction of sweet-potato storage houses 2
Materials required for houses of different sizes 8
Utilizing abandoned tenant houses, warehouses, and other structures for storing sweet potatoes 14
Varieties of sweet potatoes for market 14
Harvesting sweet potatoes 15
Crate storage 16
Filling the bins 17
Curing sweet potatoes 17
Methods of heating a storage house 17
Storage pits and cellars 18
Marketing sweet potatoes 21
Publications on sweet potatoes 21
FARMERS' BULLETIN No. 1443.—DAIRY CATTLE BREEDS:
Dairy cattle in United States 3
What is a dairy breed? 5
Registration 6
Which breed to select 6
The score card 7
Ayrshire 8
Brown Swiss 13
Dutch Belted 17
Guernsey 20
Holstein-Friesian 24
Jersey 28
Breed associations 32
FARMERS' BULLETIN No. 1444.—GAME LAWS FOR THE SEASON 1924–25: A SUMMARY OF FEDERAL, STATE, AND PROVINCIAL STATUTES:
Officials from whom copies of laws may be obtained ii
Review of legislation of 1924 1
Summary of laws relating to seasons, licenses, limits, possession, interstate transportation, and sale 4
State laws 5
Canada 30
Newfoundland 35
Mexico 35
Order permitting, the killing of bobolinks, reedbirds, or rice birds 35
Imported game and game raised in captivity 36
FARMERS' BULLETIN No. 1445.—LAWS RELATING TO FUR ANIMALS FOR THE SEASON 1924–25:
Officials from whom copies of laws may be obtained ii
Introduction 1
Causes of fur depletion 1
Unprime pelts 1
Reports of trappers 2
Restocking with fur animals 2
Unwise drainage 2
Fur farming 3
Interstate shipments of pelts 3
Review of legislation of 1924 4

FARMERS' BULLETIN No. 1445.—LAWS RELATING TO FUR ANIMALS FOR THE SEASON 1924–25—Continued. Page
Summary of laws 4
Federal laws 4
Laws of States 5
Laws of Canada 18
Laws of Newfoundland 22
Laws of Mexico 22
FARMERS' BULLETIN No. 1446.—COW-TESTING ASSOCIATIONS, AND STORIES THE RECORDS TELL:
Methods of work 1
Increase in number of cow-testing associations 2
Results of cow-testing associations 4
How farmers regard the work 7
What cow-testing association records reveal 10
How to start and conduct an association 15
Production and income 18
Constitution and by-laws for the cow-testing association 20
FARMERS' BULLETIN No. 1447.—CITRUS-FRUIT GROWING IN THE SOUTHWEST:
Introduction 1
Development of the industry 1
Kinds of citrus fruits in the Southwest 6
Varities grown in the Southwest 7
Propagation of citrus trees 13
Location of the orchard 17
Development of the orchard 18
Harvesting and marketing the crop 40
Labor conditions 41
FARMERS' BULLETIN No. 1448.—FARMSTEAD WATER SUPPLY:
Introduction 1
Purity of farm waters 1
Safeguarding the water supply 3
Characteristics of good water 5
Consumption of water 5
Cisterns 7
Filters 9
Disinfection of drinking water 10
Surface-water supplies 12
Ground-water supplies 12
Cleaning dug wells 17
Pumps 24
Power 29
Storage of water 32
Planning of system 33
Fire prevention 36
Water softening and iron removal 36
Pipes and fittings 38
FARMERS' BULLETIN No. 1449.—SELECTION OF COTTON FABRICS:
Appropriate fabrics for various uses 1
Fabric construction 2
Fiber 2
Yarn 4
Weaves 7
Judging the weave 11
Knitted fabrics 12
Finishing 12
Judging the finishing 14
Dyes 15
Substantive dyes 18
Adjective dyes 18
Judging the fastness of the color 19
Glossary of some common cotton fabrics 19
FARMERS' BULLETIN No. 1450.—HOME BAKING.
Flour and other mill products of wheat 1
Other flours and meals used in baking 3
Measurements 3
Yeast breads 3
Quick breads, cakes, cookies, and pastry 8
